

## Meet The Owner Managed Businesses Team

Our owner managed businesses sector is a combination of separate legal specialisms, as the needs of an owner managed business can encompass a number of specialist areas of law – but as a firm we wanted to give true focus to such businesses as we are passionate about working with them, ideally from the offset, helping them achieve their objectives, aspirations and growth plans.

Owner managed businesses are considered by many to be the backbone of the UK economy. They come in all shapes and sizes and trading entities, ranging from sole traders, partnerships, limited liability partnerships and limited companies employing sometimes just two or three staff, sometimes hundreds.

At Band Hatton Button, we are very conscious of the needs of owner managed businesses, many of our clients fall into this category, and we know that access to accurate and practical legal advice, often at short notice, is very important.
