

Meet The Family Team

We have a large team of highly experienced solicitors specialising in a broad range of divorce and family law services. We understand how difficult and worrying issues around separation and divorce can be and we can help ease the stress and your concerns.

Any of our solicitors will be happy to speak with you on the telephone in the first instance in order to deal with your initial enquiries and give you further information in relation to your options, without any charge or obligation.

We offer very competitive fixed fees on a broad range of services such as undefended divorce proceedings and meetings to provide detailed advice or case review. For more complex needs we have the knowledge and experience to be able to give clear information in relation to what you can expect during your case and how much it may cost.

We are also able to assist with a full range of dispute resolution services as we have three solicitors qualified and experienced in the collaborative law process. In addition, we also have a qualified family mediator.

Areas of work which our Family team covers include:

- Change of Name Deeds
- Children
- Childcare
- Civil Partnerships
- Collaborative Family Law
- Cohabitee Disputes
- Pre-Nuptial Agreements
- Financial Settlements
- Injunctions
- Mediation
- Personal Protection
- Divorce & Separation
- Costs
